

## MAYOR'S MESSAGE

Dear Community,

It is hard to believe that it is October already. The weather is changing a bit and it is getting darker sooner. Thus, our summer is finally over.

I want to start out thanking the School District for a great start to the school year. I have two sons at Cedarcrest High School and they are enjoying the experience. The football games are always a great way to connect with your neighbors and friends. In addition, the City and the School District have a great partnership that continues to grow each year.

The construction of Main Street is in full swing. The City will be posting updates on our website and on Facebook and Twitter on a regular basis. We are working with the contractor to minimize traffic issues and we appreciate everyone's patience on this project. When it is all done, it will look amazing and we can then walk from one end of town to the other.

I would be remiss if I did not mention the big event in October; The Annual Trick or Treat Event. It has evolved to more than an event for the kids. It is now a party. It runs from 3:00 p.m. until 6:00 p.m. on Monday, October 31<sup>st</sup>.

Finally, I would like to welcome Veronika Williams to the City Council. She was appointed by her peers at the September 6<sup>th</sup> council meeting. I look forward to working with her and I know she is geared up and ready to work. Veronika previously served on the Planning Commission as its Chair.

Sincerely,

Will Ibershof

## MAIN STREET PROJECT UPDATE

September saw the official start of our Main Street project and by now you have certainly noticed crews making progress. In September much of the focus has been on clearing & grading as well as installation of storm lines and treatment. October

will see more storm work as well as water main installation. Nearly all of the activity over the next month or two will be focused between NE 145<sup>th</sup> and Valley Street. Expect typical minor construction delays as the contractor is using single lane closures and alternating traffic flow.
