

Small Town. Real Life.

In conjunction with the 2015 Comprehensive Plan Update, the City of Duvall is drafting an Environmental Impact Statement to help determine the built and natural impacts these updates may have on the community.

The City is exploring several land use alternatives.

What does this mean to you?

Zoning and land use changes.

Changes to the city's urban growth areas.

Redistribution of future commercial and residential areas.

Your feedback is important in helping to determine the impacts of these alternatives.

**To learn more, please attend
a Community Meeting
on Tuesday, March 3rd, 7:00 pm,
at the Duvall Visitor Center,
15619 Main Street.**
