

2015 Overlay and Asphalt Repair

Small Town. Real Life.

**ANTICIPATED START DATE:
OCTOBER 12, 2015**

The 2015 Overlay Program and Asphalt Repair project began Monday 10/12. Work began at sites #3-#6 (identified on map) and included minor pavement and utility patch repairs with one lane closures and flagging. Much of this work will be complete by the end of the day.

On Tuesday 10/13 asphalt grinding and prep work will begin on NE Valley and NE Stephens streets. Much of the work will occur under single lane closures with flaggers directing traffic. The project limits on Stephens Street begin at 2nd Ave and continue to 3rd Place. Valley Street paving limits begin at 1st Ave and extend approximately 200 feet east. Valley Street may be closed at times during pavement overlay.

Currently the asphalt overlay of these two locations is scheduled to occur between 10/14 & 10/16. This schedule is subject to change due to weather or other circumstances.

For additional information about this project please contact:

Alana McCoy, Project Manager at 425-939-8045 or at Alana.mccoy@duvallwa.gov
