

# Main Street Project Progress Update

## What's Been Going On?

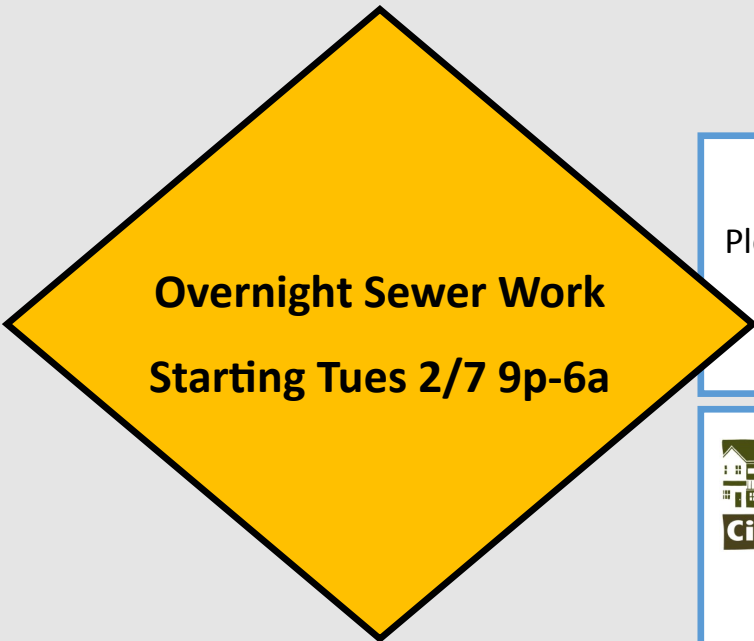

You've probably noticed all the clearing around 143rd. What a difference that makes. This week we tied up a lot of loose ends on the JUT, and installed two big electric switch vaults down by NE 145th. Temporary video detection at Big Rock Road is installed, though the timing was a bit off at first. Whoops.

## What's Coming Up next week?

Crews will be continuing JUT work approaching Big Rock Road as well as placement of some structures. We're also expecting to see a crew working on wall cuts, along both sides of the road.

## Also Coming up...

Overnight work to "slip-line" some sewer main is currently on the schedule to begin Feb 7th. This will be a fairly quiet activity as a sleeve is drug inside the existing pipe; but we will have traffic control set-up and flaggers directing traffic at the odd hours of 8pm—5am.

**DO NOT BLOCK INTERSECTIONS AND ENTRANCES**

Please make sure to stay aware of your surrounding leaving room and not blocking these areas.
