

## Judd Park – Is the City proposing to remove the park to install traffic calming measures at 275<sup>th</sup> and 150<sup>th</sup>?

The City is in the process of updating its Transportation Plan. As part of the update process we are looking at **traffic calming measures** (TCM) within the City. One TCM being considered is a round-a-bout at the intersection of 275<sup>th</sup> and 150<sup>th</sup>.

A preliminary design illustration shows **Judd Park** will not be removed. Minor landscaping adjustments may be necessary based on final design, but the park is here to stay.
