

SEPA ENVIRONMENTAL CHECKLIST

Purpose of checklist

Governmental agencies use this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization, or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

Instructions for applicants

This environmental checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully, to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions. **You may use "not applicable" or "does not apply" only when you can explain why it does not apply and not when the answer is unknown.** You may also attach or incorporate by reference additional studies reports. Complete and accurate answers to these questions often avoid delays with the SEPA process as well as later in the decision-making process.

The checklist questions apply to **all parts of your proposal**, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Instructions for lead agencies

Please adjust the format of this template as needed. Additional information may be necessary to evaluate the existing environment, all interrelated aspects of the proposal and an analysis of adverse impacts. The checklist is considered the first but not necessarily the only source of information needed to make an adequate threshold determination. Once a threshold determination is made, the lead agency is responsible for the completeness and accuracy of the checklist and other supporting documents.

Use of checklist for nonproject proposals

For nonproject proposals (such as ordinances, regulations, plans and programs), complete the applicable parts of sections A and B, plus the [Supplemental Sheet for Nonproject Actions \(Part D\)](#). Please completely answer all questions that apply and note that the words "project," "applicant," and "property or site" should be read as "proposal," "proponent," and "affected geographic area," respectively. The lead agency may exclude (for non-projects) questions in "Part B: Environmental Elements" that do not contribute meaningfully to the analysis of the proposal.

A. Background [Find help answering background questions](#)

	APPLICANT RESPONSE	AGENCY RESPONSE
1. Name of proposed project, if applicable:	Transportation Plan Update	
2. Name of applicant:	Larissa Grundell, PE	
3. Address and phone number of applicant and contact person:	14525 Main Street NE Duvall, WA 98019 425.788.3434	
4. Date checklist prepared:	January 15, 2025	
5. Agency requesting checklist:	City of Duvall	
6. Proposed timing or schedule (including phasing, if applicable):	Projects within the Transportation Plan may be constructed in the 2024-2044 timeframe.	
7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.	This is a non-project action to adopt the 2024 Transportation Plan Update.	
8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.	This is a non-project action. Necessary environmental studies such as SEPA and sensitive area, geotechnical, and technical information reports will be completed at time of permit application for the improvements.	
9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain.	Approval is required by the Duvall City Council for adoption of the 2015 Transportation Plan Update.	
10. List any government approvals or permits that will be needed for your proposal, if known.	NA	
11. Give a brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain	The 2024 Transportation Plan (TP) Update is a companion document which implements the City's adopted goals and policies and summarizes possible road construction projects to develop a 20-year project list.	

	APPLICANT RESPONSE	AGENCY RESPONSE
<p>aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)</p>		
<p>12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.</p>	Citywide	

B. Environmental Elements

1. Earth [Find help answering earth questions](#)

	APPLICANT RESPONSE	AGENCY RESPONSE
<p>a. General description of the site:</p>	<p>Circle or highlight one: Flat, rolling, hilly, steep slopes, mountainous, other: Varies</p>	
<p>b. What is the steepest slope on the site (approximate percent slope)?</p>	<p>Slopes vary within the City but generally do not exceed 20% in any of the proposed project areas.</p>	

	APPLICANT RESPONSE	AGENCY RESPONSE
c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them, and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils.	Topsoil, weathered glacial soils, glacially consolidated till, and outwash are generally present within the City. No agricultural lands or farmlands are present within the proposed project areas.	
d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.	The proposed projects are generally located within existing right-of-way (ROW) corridors with no known history of slope instability. Soils with Low to High erodibility are present within the project areas.	
e. Describe the purpose, type, total area, and approximate quantities and total affected area of any filling, excavation, and grading proposed. Indicate source of fill.	This non-project action. Individual evaluations and permits will be completed prior to any construction activity.	
f. Could erosion occur because of clearing, construction, or use? If so, generally describe.	Best management practices will be used during construction to minimize the potential for erosion.	
g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?	Individual evaluations and permits will be completed prior to any construction activity.	
h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any.	Best management practices will be used during construction to minimize the potential for erosion.	

2. Air [Find help answering air questions](#)

	APPLICANT RESPONSE	AGENCY RESPONSE
a. What types of emissions to the air would result from the proposal during construction, operation, and maintenance when the project is completed? If any, generally describe and give approximate quantities if known.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
c. Proposed measures to reduce or control emissions or other impacts to air, if any.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	

3. Water [Find help answering water questions](#)

a. Surface Water: [Find help answering surface water questions](#)

	APPLICANT RESPONSE	AGENCY RESPONSE
1. Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application. Streams, creeks, wetlands, and or buffers may be adjacent to some of the project areas. Each project would require a permit and SEPA evaluation.	
2. Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
3. Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	

	APPLICANT RESPONSE	AGENCY RESPONSE
be affected. Indicate the source of fill material.		
4. Will the proposal require surface water withdrawals or diversions? Give a general description, purpose, and approximate quantities if known.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
5. Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
6. Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	

b. Ground Water: [Find help answering ground water questions](#)

	APPLICANT RESPONSE	AGENCY RESPONSE
1. Will groundwater be withdrawn from a well for drinking water or other purposes? If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give a general description, purpose, and approximate quantities if known.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
2. Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (domestic sewage; industrial, containing the following chemicals...; agricultural; etc.). Describe the general size of the system, the number of such	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	

	APPLICANT RESPONSE	AGENCY RESPONSE
systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.		

c. Water Runoff (including stormwater):

	APPLICANT RESPONSE	AGENCY RESPONSE
1. Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application. Surface water runoff that is generated by any of the proposed projects will be treated as required by the most recent version of the King County Surface Water Design Manual.	
2. Could waste materials enter ground or surface waters? If so, generally describe.	No.	
3. Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site? If so, describe.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application. Individual evaluations and permits will be completed prior to any construction activity.	
4. Proposed measures to reduce or control surface, ground, and runoff water, and drainage pattern impacts, if any.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application. Individual evaluations and permits will be completed prior to any construction activity.	

4. Plants [Find help answering plants questions](#)

	APPLICANT RESPONSE	AGENCY RESPONSE
a. Check the types of vegetation found on the site:	<input checked="" type="checkbox"/> deciduous tree: alder, maple, aspen, other <input checked="" type="checkbox"/> evergreen tree: fir, cedar, pine, other <input checked="" type="checkbox"/> shrubs <input checked="" type="checkbox"/> grass <input type="checkbox"/> pasture <input type="checkbox"/> crop or grain <input type="checkbox"/> orchards, vineyards, or	

	APPLICANT RESPONSE	AGENCY RESPONSE
	other permanent crops. <input type="checkbox"/> wet soil plants: cattail, buttercup, bullrush, skunk cabbage, other <input type="checkbox"/> water plants: water lily, eelgrass, milfoil, other <input type="checkbox"/> other types of vegetation	
b. What kind and amount of vegetation will be removed or altered?	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
c. List threatened and endangered species known to be on or near the site.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application. All improvements will comply with DMC 14.40 Tree Protection, DMC 14.36 Landscape Standards and DMC 14.34 Design Guidelines.	
e. List all noxious weeds and invasive species known to be on or near the site.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	

5. Animals [Find help answering animal questions](#)

	APPLICANT RESPONSE	AGENCY RESPONSE
a. List any birds and other animals that have been observed on or near the site or are known to be on or near the site. Examples include: <ul style="list-style-type: none"> • Birds: hawk, heron, eagle, songbirds, other: • Mammals: deer, bear, elk, beaver, other: • Fish: bass, salmon, trout, herring, shellfish, other: 		

	APPLICANT RESPONSE	AGENCY RESPONSE
f. List any threatened and endangered species known to be on or near the site.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
g. Is the site part of a migration route? If so, explain.	The City of Duvall is located within the Pacific Flyway.	
h. Proposed measures to preserve or enhance wildlife, if any.	None needed, project areas located in existing urban environments.	
i. List any invasive animal species known to be on or near the site.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	

6. Energy and Natural Resources [Find help answering energy and natural resource questions](#)

	APPLICANT RESPONSE	AGENCY RESPONSE
a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application. Some of the projects require installation of electric streetlights, rapid flashing beacon, and stoplights. Most of the projects do not require energy once complete.	
b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.	No.	
c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	

7. Environmental Health [Find help with answering environmental health questions](#)

	APPLICANT RESPONSE	AGENCY RESPONSE
a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application. Environmental health hazards not expected from roadway	

	APPLICANT RESPONSE	AGENCY RESPONSE
hazardous waste, that could occur because of this proposal? If so, describe.	construction.	
1. Describe any known or possible contamination at the site from present or past uses.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
2. Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
3. Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
4. Describe special emergency services that might be required.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
5. Proposed measures to reduce or control environmental health hazards, if any.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
b. Noise 1. What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
2. What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	

	APPLICANT RESPONSE	AGENCY RESPONSE
noise would come from the site)?		
3. Proposed measures to reduce or control noise impacts, if any.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	

8. Land and Shoreline Use [Find help answering land and shoreline use questions](#)

	APPLICANT RESPONSE	AGENCY RESPONSE
a. What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
b. Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses because of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to nonfarm or nonforest use?	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
1. Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling, and harvesting? If so, how?	No.	
c. Describe any structures on the site.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	

	APPLICANT RESPONSE	AGENCY RESPONSE
d. Will any structures be demolished? If so, what?	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
e. What is the current zoning classification of the site?	ROW is not zoned.	
f. What is the current comprehensive plan designation of the site?	ROW's do not have comprehensive plan designation. However, the street classification will vary by project.	
g. If applicable, what is the current shoreline master program designation of the site?	No.	
h. Has any part of the site been classified as a critical area by the city or county? If so, specify.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
i. Approximately how many people would reside or work in the completed project?	This is a non-project action.	
j. Approximately how many people would the completed project displace?	This is a non-project action.	
k. Proposed measures to avoid or reduce displacement impacts, if any.	This is a non-project action.	
l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
m. Proposed measures to reduce or control impacts to agricultural and forest lands of long-term commercial significance, if any.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	

9. Housing [Find help answering housing questions](#)

	APPLICANT RESPONSE	AGENCY RESPONSE
a. Approximately how many units would be provided, if any? Indicate whether high,	None.	

	APPLICANT RESPONSE	AGENCY RESPONSE
middle, or low-income housing.		
b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.	None.	
c. Proposed measures to reduce or control housing impacts, if any.	NA	

10. Aesthetics [Find help answering aesthetics questions](#)

	APPLICANT RESPONSE	AGENCY RESPONSE
a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?	NA	
b. What views in the immediate vicinity would be altered or obstructed?	NA	
c. Proposed measures to reduce or control aesthetic impacts, if any.	NA	

11. Light and Glare [Find help answering light and glare questions](#)

	APPLICANT RESPONSE	AGENCY RESPONSE
a. What type of light or glare will the proposal produce? What time of day would it mainly occur?	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application. Proposed lighting improvements will comply with DMC.	
b. Could light or glare from the finished project be a safety hazard or interfere with views?	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
c. What existing off-site sources of light or glare may affect your proposal?	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
d. Proposed measures to reduce or control light and	This is a non-project action. Each project on the 2024 TP Update will	

	APPLICANT RESPONSE	AGENCY RESPONSE
glare impacts, if any.	be evaluated at time of permit application.	

12. Recreation [Find help answering recreation questions](#)

	APPLICANT RESPONSE	AGENCY RESPONSE
a. What designated and informal recreational opportunities are in the immediate vicinity?	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
b. Would the proposed project displace any existing recreational uses? If so, describe.	No.	
c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any.	NA	

13. Historic and Cultural Preservation [Find help answering historic and cultural preservation questions](#)

	APPLICANT RESPONSE	AGENCY RESPONSE
a. Are there any buildings, structures, or sites, located on or near the site that are over 45 years old listed in or eligible for listing in national, state, or local preservation registers? If so, specifically describe.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
b. Are there any landmarks, features, or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts, or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	

	APPLICANT RESPONSE	AGENCY RESPONSE
<p>c. Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples include consultation with tribes and the department of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc.</p>	<p>This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.</p>	
<p>d. Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance to resources. Please include plans for the above and any permits that may be required.</p>	<p>This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.</p>	

14. Transportation [Find help with answering transportation questions](#)

	APPLICANT RESPONSE	AGENCY RESPONSE
<p>a. Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plans, if any.</p>	<p>Existing city streets and highways adjacent to TIP projects and improvements to public ROW.</p>	
<p>b. Is the site or affected geographic area currently served by public transit? If so, generally describe. If not, what is the approximate distance to the nearest transit stop?</p>	<p>The City of Duvall is currently served by Metro.</p>	
<p>c. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle, or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or</p>	<p>This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.</p>	

	APPLICANT RESPONSE	AGENCY RESPONSE
private).		
d. Will the project or proposal use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
e. How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and nonpassenger vehicles). What data or transportation models were used to make these estimates?	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	
f. Will the proposal interfere with, affect, or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe.	No.	
g. Proposed measures to reduce or control transportation impacts, if any.	This is a non-project action. Each project on the 2024 TP Update will be evaluated at time of permit application.	

15. Public Services [Find help answering public service questions](#)

	APPLICANT RESPONSE	AGENCY RESPONSE
a. Would the project result in an increased need for public services (for example: fire protection, police protection, public transit, health care, schools, other)? If so, generally describe.	No.	
b. Proposed measures to reduce or control direct impacts on public services, if any.	NA

D. Supplemental sheet for nonproject actions [Find help for the nonproject actions worksheet](#)

IT IS NOT REQUIRED to use this section for project actions.

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment.

When answering these questions, be aware of the extent the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

	APPLICANT RESPONSE	AGENCY RESPONSE
1. How would the proposal be likely to increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise?	Air and noise pollution may occur during construction. Additionally, the increase in impervious surface may result in additional runoff.	
a. Proposed measures to avoid or reduce such increases are:	The additional impervious surface will be managed by existing or proposed drainage facilities. Additionally, the individual projects within the proposal will be evaluated with respect to discharge or emissions at the planning and permitting stage and any or all impacts will be avoided or mitigated	
2. How would the proposal be likely to affect plants, animals, fish, or marine life?	Most of the proposed roadway improvements will not harm plants, animals, fish or marine life as most of the work will be done in existing developed ROW.	
a. Proposed measures to protect or conserve plants, animals, fish, or marine life are:	Individual projects within the proposal will be evaluated with respect to plant and animal at the planning and permitting stage and any or all impacts will be avoided or mitigated.	
3. How would the proposal be likely to deplete energy or natural resources?	Some energy and resources will be expended during construction.	
a. Proposed measures to protect or conserve energy and natural	Energy and natural resources will be the minimum necessary to construct the needed improvements.	

	APPLICANT RESPONSE	AGENCY RESPONSE
resources are:	Additionally, the individual projects within the proposal will be evaluated with respect to conserving energy and resources at the planning and permitting stage and any or all impacts will be avoided or mitigated.	
4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection, such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?	Individual projects within the proposal will be evaluated with respect to environmentally sensitive areas or area designated for governmental protection at the planning and permitting stage and any or all impacts will be avoided or mitigated.	
a. Proposed measures to protect such resources or to avoid or reduce impacts are:	Projects taking place near a sensitive area will require additional environmental evaluation (SEPA) and will be required to comply with the city's sensitive area code.	
5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?	The proposal is a non-project action and will not have any land and shoreline use impacts. Individual projects within the proposal will be evaluated with respect to land and shoreline use impacts at the planning and permitting stage and any or all impacts will be avoided or mitigated.	
a. Proposed measures to avoid or reduce shoreline and land use impacts are:	The roadway improvements will support the comprehensive plan for land use within the City of Duvall by improving roadways and providing necessary access to these lands. None of the proposed projects are in shoreline areas.	
6. How would the proposal be likely to increase demands on transportation or public services and utilities?	The proposed roadway improvements will provide better transportation and public services to the City of Duvall. The completion of the bike lanes and sidewalks will also provide the community with alternative means of transportation.	

	APPLICANT RESPONSE	AGENCY RESPONSE
a. Proposed measures to reduce or respond to such demand(s) are:	NA	
7. Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.	The proposed improvements are not in conflict with local, state, or federal laws or requirements for the protection of the environment.
