

Deceased or Injured Wildlife on Private Property?

From time to time injured or deceased wildlife may wind up on your private property.

If the animal is injured, WA Dept. of Fish and Wildlife can help by calling (425)-775-1311.

If the animal is deceased, you must call a wildlife disposal service or animal renderer and have it disposed of in accordance with State Law, or dispose of it yourself in accordance with state rules and health codes.
