Check box for each of the below

Moratorium Established. The City hereby imposes a moratorium upon the receipt and processing of any subdivision application, applications for building permits and any other application for other permits of any type which requires a new connection to the City sewer system, or which increases the assessed equivalent residential unit (ERU) and loading on the system as determined by the City Engineer.

Exceptions. The moratorium imposed shall be subject to the following exceptions:

- The moratorium shall not apply to prevent the processing and issuance of any permit or approval where the City already, as of the effective date of this ordinance, issued a sewer availability certificate to the applicant indicating sewer capacity was available for the proposed project.
- The moratorium shall not apply to prevent the processing and issuance of any permit or approval for a project as determined by the City Engineer which:

Does not require a sewer availability certificate and does not increase the assessed equivalent residential unit (ERU) and loading on the system as determined by the City Engineer

Does not increase the assessed equivalent residential unit (ERU) and loading on the system as determined by the City Engineer

Does not require any new connections to the City's sewer system as determined by the City Engineer.
