

18:03:38 From The Martins to Everyone:  
I think the link on the city website is wrong. it is missing the "p" around the "?pwd" so people are not able to connect

18:04:51 From The Martins to Everyone:  
Your link on the website and facebook was wrong and asking folks for a passcode. So we know neighbors not able to get online,

18:10:49 From KPG Psomas to Everyone:  
Thanks for your patience Folks!

18:11:28 From Sandy Subert to Everyone:  
has anyone updated on your fb post?

18:11:51 From Lynette Ziuchkovski to Everyone:  
There was an updated link on the fb post in comments.

18:12:03 From Sandy Subert to Everyone:  
ok, thanks

18:31:46 From The Martins to Everyone:  
Where does the space for the five foot planter buffer come from if that space isn't noted in each option?

18:32:59 From Hope Freije - Public Outreach Facilitator, KPG (she/her) to Phuong Nguyen, Urban Design - KPG Psomas(Direct Message):  
would I just say it comes from the ROW?

18:33:28 From Phuong Nguyen, Urban Design - KPG Psomas to Hope Freije - Public Outreach Facilitator, KPG (she/her)(Direct Message):  
let's ask that in the Q&A

18:41:03 From Kathy O'Connor to Everyone:  
I'm curious about electric bikes—where do they fit in?

18:41:17 From Reagan to Everyone:  
Is there a plan for a safe and lighted crosswalk across third, to Taylor Park? Cars do not stop for pedestrians and children on bikes and drive extremely fast down the hill towards the stop sign when headed South on third.

18:41:40 From Celeste to Everyone:  
Great question, Reagan! I second.

18:41:48 From Reagan to Everyone:  
I think the visibility is an issue and a sidewalk like the one by Judd would really help.

18:41:55 From Reagan to Everyone:  
Crosswalk

18:42:12 From Kathy O'Connor to Everyone:  
I love the blackberry area!!!!

18:44:40 From Kathy O'Connor to Everyone:  
One of the joys of 3rd ave is picking those blackberries. All the development going on is decimating all the blackberries. I realize they are a pain but they also are so....Duvall.

18:45:03 From trace to Everyone:  
Frankly, whatever is put in needs to be as LOW maintenance as possible, as the city rarely maintains

18:45:34 From Brenda to Everyone:  
Except when you try to walk the path or sidewalk and have to dodge the stickers... ♀

18:45:44 From The Martins to Everyone:  
The city does cut the blackberry bushes back but usually just once a year right when the vines are full of ripe sweet berries. It always seems like odd timing.

18:49:01 From Jacquie to Everyone:  
I agree, Zane! I don't want people flying into my fence!

18:49:27 From Sandy Subert to Everyone:  
we can have a few bushes in middle of roundabout to slow down

18:50:33 From The Martins to Everyone:  
Were school bus stops considered? Some on 3rd especially are not well placed where big trucks or trailers have almost clipped kids waiting on corners.

18:51:25 From Lora Sonnen to Everyone:

I agree, some basic crosswalks would be great

18:51:38 From Reagan to Everyone:  
I meant the light up crosswalk

18:51:42 From The Martins to Everyone:  
And when will the arborist initial plans be shared so we know a tree plan as residents who do love some of the trees pictured.

18:52:59 From Kathy O'Connor to Everyone:  
Thank you for info on e-bikes. It seems the option with bike lane in street would be best for e-bikes rather than putting pedestrians and Bikes together. We don't have a lot of bikes in Duvall that I have seen, but they're hot items elsewhere.

18:53:09 From Jacquie to Everyone:  
We have an existing streetlight IN our yard on the corner of 3rd and Comegys. Will those existing lights be taken out?

18:59:33 From Gretchen Harmon to Everyone:  
Are there any plans to continue this design north of Stephens to Cherry Valley?

19:01:07 From Gretchen Harmon to Everyone:  
Thanks

19:01:59 From The Martins to Everyone:  
Thanks, looking forward to news to come!

19:02:17 From Kathy O'Connor to Everyone:  
I'd like to add that the more natural the sidewalks and roads, the better it will be for the environment and more connected to nature we will feel, which is a special trait of Duvall. For example, blackberries! I hate to think of so much more of nature and our neighborhoods all paved over... I hope ways can be found to make it still feel rural, forested, etc. Thanks for listening.

19:03:08 From Hope Freije - Public Outreach Facilitator, KPG (she/her) to Everyone:  
Thanks Kathy! That is really helpful input.

19:03:38 From Jacquie to Everyone:  
can you have done this 10 years ago when we moved in please?

19:03:48 From Kathy O'Connor to Everyone:  
Thank you!

19:06:49 From Coreen Schmidt, Landscape Architect, KPG to Everyone:  
I have to jump off, thanks everyone! Have a good evening
